

Not all hospitals are alike. The Leapfrog Hospital Survey assesses hospital safety and quality and compares hospitals on their ability to protect patients from harm. It provides valuable patient safety information, such as on maternity care, so that you can make the best decision about where to receive care. Patients have a right to transparent information on hospital care—good and bad. Visit www.leapfroggroup.org/compare-hospitals for more information on the safety and quality of hospitals.

The Leapfrog Group 2019 Hospital Survey Maternity Measures (as of September 30, 2019)

Hospital	Early Elective Delivery Rate	NTSV C-section Rate	Episiotomy Rate
Atlanticare Regional Medical Center-Mainland Campus	0.0%	34.3%	5.0%
Cape Regional Medical Center	0.0%	35.8%	14.9%
Capital Health Medical Center-Hopewell	1.5%	18.6%	4.7%
CarePoint Health-Christ Hospital	0.0%	33.6%	23.7%
Carepoint Health-Hoboken University Medical Center	0.0%	30.9%	6.6%

Virtua Voorhees Hospital	0.7%	18.0%	1.2%
Rate of New Jersey Hospitals Currently Meeting Leapfrog's Standard	94%	27%	45%

Why This Matters

- These procedures have risks to both the mother and baby, such as difficulty with future pregnancies, increased risk of infection, and risk of breathing difficulties.
- Find hospitals committed to transparency and educating their patients about the safety and quality of care they provide.
- You *have* a choice in where you go to receive care. Use this information to choose a hospital that delivers high quality care.

Legend:

- **NTSV Caesarean (C) Section:** First-time mothers giving birth to a single baby at 37 weeks or later in a head-down position. Leapfrog standard: 23.9% or lower.
- **Early Elective Delivery:** A scheduled medical induction or C-section performed without medical necessity prior to 39 weeks gestation. Leapfrog standard: 5% or lower.
- **Episiotomy:** An incision made in the perineum (birth canal) during childbirth. Leapfrog standard: 5% or lower.
- Red highlight indicates a hospital not meeting the Leapfrog standard for that measure.

The New Jersey Health Care Quality Institute serves as the Leapfrog Regional Leader for New Jersey. The Quality Institute works to improve the safety, quality, and affordability of health care for everyone.
