

New Jersey Maternity and Pediatric Health Trends

County-Level Review

NEW JERSEY
HEALTH CARE

**QUALITY
INSTITUTE**

A Note on Data Sources

New Jersey State Health Assessment Data:

- Birth rate- 2018
- Total births- 2018
- Teen birth rate- 2016-2018 combined
- Preterm births- 2018
- Fetal mortality rate- 2013-2015
- Infant mortality rate- 2015-2017
- Received 1st Trimester Prenatal Care- 2018
- Low-risk (NTSV) c-section deliveries- 2018
- VBAC rate- 2018
- Low-birth weight- 2018

KidsCount Data:

- Families Receiving TANF- 2017
- Families Receiving SNAP- 2017
- Families Receiving WIC- 2017
- % of Children Living Below Fed Poverty Line- 2016
- Children 0-18 receiving NJ FamilyCare- 2017
- Lead Testing- 2016
- Rate of Reported Abuse/Neglect- 2016
- Public Kindergarten Enrollment- 2016

↑↓ **Black arrows** indicate that an increase or decrease in county measure is **neutral/better** than state median

↑↓ **Red arrows** indicate that an increase or decrease in county measure is worse than state median

NJ Department of Education:

- Immunization Requirements Complete by Kindergarten- 2018/2019 school year

Leapfrog Group Safety Data:

- Early elective delivery rate- 2018/2019
- NTSV c-section rate- 2018/2019
- Episiotomy rate- 2018/2019

HRSA Data for FQHCs:

All data reported is from the parent organization and may include an aggregate of multiple sites

- Prenatal patients- 2018
- Prenatal patients who delivered- 2018
- Access- 1st trimester care- 2018
- Low birth weight- 2018
- Female patients ages 15-44- 2018
- Pediatric patients- 2018

Atlantic County Maternity Trends

Medicaid Beneficiaries: 68,747

Birth Rate: 10.5/1,000 ↑

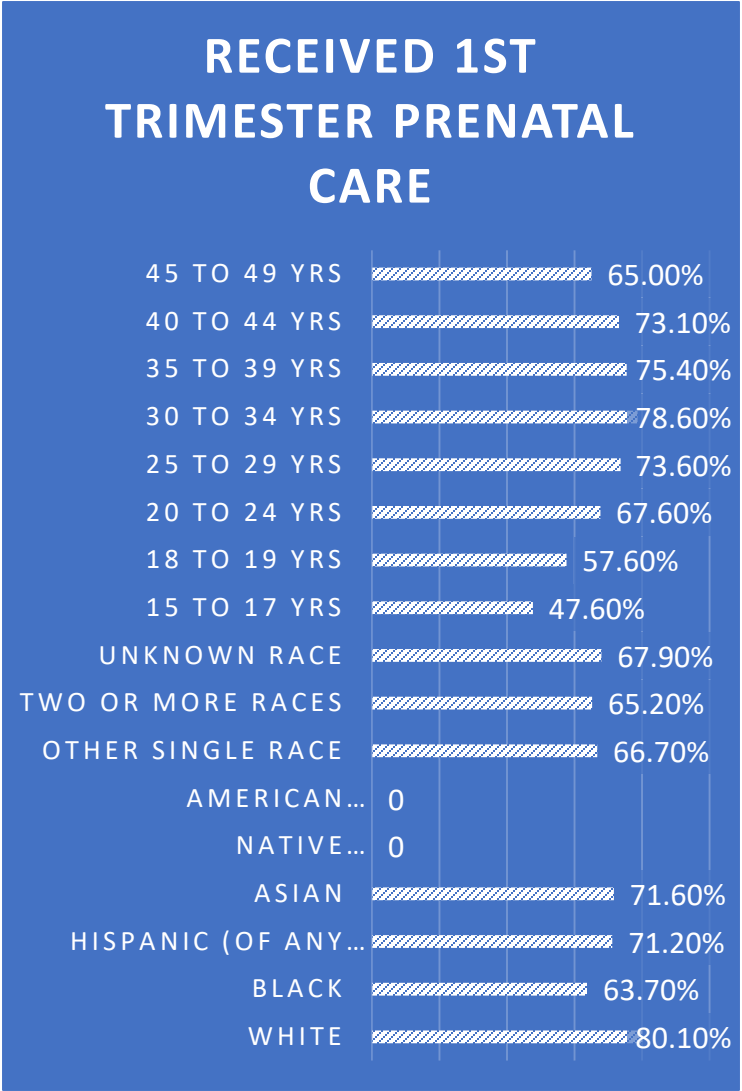

Total Births: 2,783

Teen Birth Rate (15-17): 5.5/1,000 ↑

Teen Birth Rate (18-19): 26.1/1,000 ↑

Received 1st Trimester Prenatal Care: 73.8% ↓

Benchmark Measures used are state median for birth rate (10.1/1,000); teen birth rate (15-17: 5.3/1,000; 18-19: 18.1/1,000); Received 1st Trimester Prenatal Care (77.1%)

Atlantic County Maternity Trends

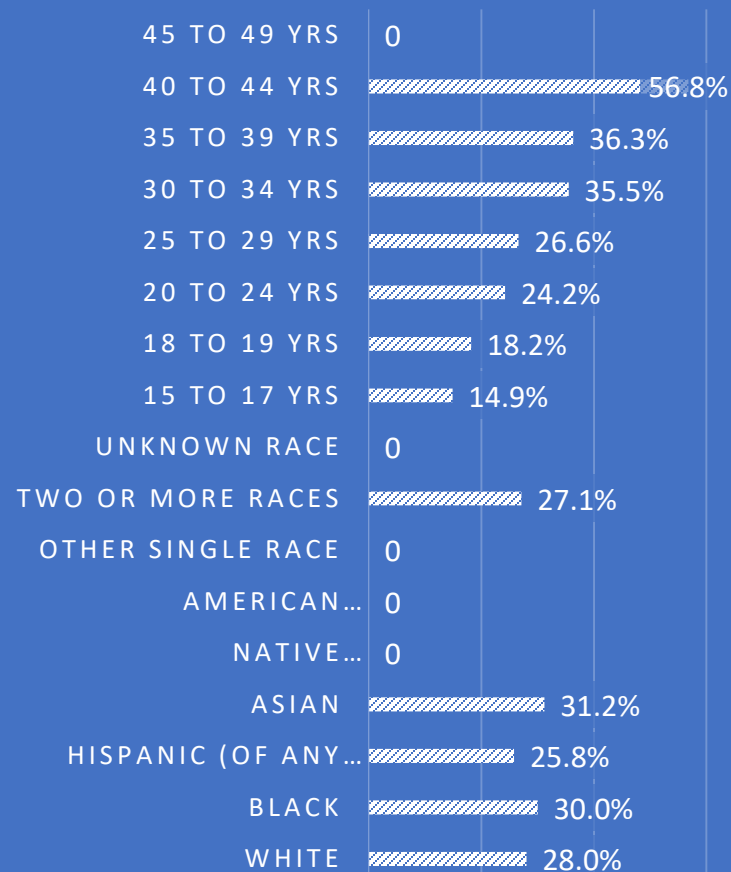

Preterm Birth Rate: 10.3% ↑
 Low-risk C-Section Rate: 27.7% =
 VBAC Rate: 11.3% ↓
 Fetal Mortality: 8.9/1,000 ↑

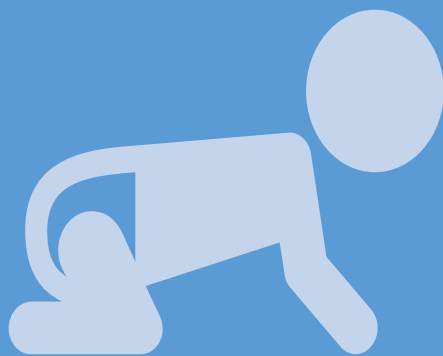

Low Birth Weight (<2500 Grams):
 8.0% ↑
 Very Low Birth Weight (<1500
 Grams): 1.9% ↑
 Infant Mortality: 6.6/1,000 ↑

Benchmark Measures used are state median for preterm birth rate (9.1%); low-risk c-section rate (27.7%); VBAC rate (11.8%); low birth rate (7.9%); very low birth rate (1.4%); and infant mortality (4.7/1,000).

LOW-RISK C-SECTION DELIVERY

Atlantic County Pediatric Trends

Families Receiving TANF: 2,278

Families Receiving SNAP: 17,975

Families Receiving WIC: 5,863

% of Children Living Below Fed Poverty Line: 24% ↑

Children 0-18 receiving NJ FamilyCare: 30,455

Lead Testing by 6 months: 20% ↑

Lead Testing between 6-26 months: 33% ↓

Rate of Reported Abuse/Neglect (out of 1,000): 67 ↑

Kindergarten Enrollment: 2,945

Immunization Requirements Complete by Kindergarten: 86% ↓

Benchmark Measures used are state median for % below FPL (15%); Lead Testing 6mo (18%); 6-26 mo (34%); Rate abuse/neglect report (49/1000)

Atlantic County Community Healthcare Profile

Hospital	NTSV C-Section Rate	Early Elective Delivery Rate	Episiotomy Rate	Total Births
Atlanticare Regional Medical Center- Mainland Campus	34.3% ↑	0.0%	5%	2,215
Shore Medical Center	26.6% ↑	0.0%	9.4% ↑	1,116

Benchmark Measures used are Leapfrog standards for NTSV c-section rate (<23.9%); early elective delivery rate (<5%); and episiotomy rate (<5%).

Municipal Data- Birth Rate and 1st Trimester Care

Of note, there were approx. 1,937 births to NJ women that occurred out of state.

Next Steps

- Identify municipal-level focus;
- Determine whether hospital provides prenatal care; accepted payers;
- Coordinate efforts with three maternal/child health consortia.

Thank You

Kate Shamszad
